

Fire Safety and Emergency Preparedness Conference

CALL FOR STUDENT POSTERS

5th International CNS
Technical Meeting on
Fire Safety and Emergency
Preparedness

Blue Mountain Resort, ON
September 10-12, 2025

The FSEP conference attracts international participants from various sectors of the nuclear industry. We invite current students to submit poster abstracts related to the conference themes, listed below. The poster does not need to be specifically related to the nuclear industry. Posters will be on display at the conference and during the poster session on the evening of September 10, where students will stand by their poster and discuss with attendees and answer judges' questions. Winners of the poster competition will be announced at the banquet on September 11 and will be awarded a \$1000 scholarship by OPG.

The first six students that register for the conference will be eligible for a reduced conference fee of \$100. Students volunteering at the conference venue are eligible for the \$100 registration fee to be waived. For other financial aid opportunities contact the student poster chair.

STUDENT POSTER AWARDS

\$1000 to top poster presentation
Certificates for top three posters

CONFERENCE THEMES

Fire Protection & Emergency Preparedness Overview - Industry Best Practices
Drills & Exercises - Fire Events - Research and Development - Industry Challenges
