

**Mark Lesinski**  
**President and Chief Executive Officer**

Managed by the Canadian National Energy Alliance (CNEA), Mark Lesinski is President and CEO, Canadian Nuclear Laboratories (CNL), Canada's premier nuclear science and technology laboratory.

Mark's career spans commercial and government nuclear facilities, from power reactor operations and retrofit projects to management of decontamination and decommissioning (D&D).

Mark spent 10 years in the UK, first on closure of Magnox South estate culminating as the Managing Director and then to serve as chief operating officer (COO) for the UK Nuclear Decommissioning Authority (NDA). His experience also includes commercial nuclear power plant retrofits, and D&D at commercial reactor and U.S. DOE sites.
