

Bruce E. Halbert  
CanNorth Environmental Services

Bruce E. Halbert, M.Sc. received his B.A.Sc. in Civil Engineering from the University of Waterloo and M.Sc. in Environmental Health Engineering from the University of Texas. He has over 45 years consulting engineering experience, much of it working on mining industry projects. Mr. Halbert's areas of expertise include: development and execution of field monitoring programs; preparation of environmental assessments; modelling of contaminant movement through the environment; assessment of ecological and human health risks; modelling of acid mine drainage; and, development of mine site rehabilitation concepts. Mr. Halbert has extensive experience working with uranium mining projects in northern Saskatchewan and has been associated with the Beaverlodge Mine rehabilitation project in northern Saskatchewan since the 1980's.
