

Samantha Chard
Australian Department of Industry, Innovation and Science

Sam is General Manager, Radioactive Waste Management Taskforce, in the Australian Department of Industry, Innovation and Science, responsible for establishing Australia's first radioactive waste management facility, and related strategic policy and legislative frameworks. Prior to heading up the taskforce, Sam has over 13 years' experience in the Australian Public Service, in a range of senior executive roles in national security policy development and program implementation, including critical infrastructure security, cyber security and disaster management.
