

Sriram Narasimhan
University of Waterloo

Dr. Sriram Narasimhan is a Professor in the departments of Civil and Environmental Engineering & Mechanical and Mechatronics Engineering at the University of Waterloo in Waterloo, Ontario, Canada, where he also holds the title of Canada Research Chair in Smart Infrastructure. Dr. Narasimhan's main research areas are in infrastructure robotics and condition assessment of structural and mechanical systems. Dr. Narasimhan received his PhD in 2005 from Rice University, Houston, Texas, USA, in structural engineering. Subsequently, he joined the University of Waterloo in 2006 as a tenure-track Assistant Professor, where he was promoted to the rank of tenured Associate Professor in 2012 and Professor in 2018. Dr. Narasimhan established the Structural Dynamics Identification and Control Laboratory at Waterloo, which now is home to state-of-the-art vibration testing and robotic infrastructure. Prior to joining the University of Waterloo, Dr. Narasimhan worked as a Project Engineer with the Risk Consulting Division at the American Bureau of Shipping in Houston, Texas, USA. Dr. Narasimhan is a recipient of several awards including, recently, the 2018 ASCE Associate Editor award for his service to the journals of Structural Engineering and Bridge Engineering.
