

1st International Technical Meeting on Fire Safety and Emergency Preparedness for the Nuclear Industry

June 17 - 19, 2015

Delta Meadowvale Hotel and Conference Centre

Mississauga, Ontario, CANADA

www.cns-snc.ca/events/fsep-2015

Objective

The earthquake and tsunami at the Fukushima Daiichi Nuclear Plant in Japan in March 2011 reinforced the need for comprehensive emergency response capability for highly unlikely radiological events that have the potential to harm the public, workers, or the environment. In the years following the events at Fukushima, nuclear facilities around the world have been enhanced. Fire protection has always been a major component of nuclear emergency response and reviews continue to provide insights on how these resources can best be deployed to reduce public risk.

Many of the lessons learned from the post-Fukushima reviews will be captured in new and revised international standards (WANO, IAEA) and Canadian regulatory documents (CNSC, CSA). The 1st International Technical Meeting on Fire Safety and Emergency Preparedness will provide a forum to communicate on challenges presently impacting the nuclear industry and share lessons learned from reviews, drills, and major exercises.

FSEP 2015 is intended to attract international participants from all sectors of the nuclear industry around the world that maintain formal emergency response plans and those municipal, provincial, and federal agencies that would provide support during an emergency.

Key Dates

Abstract submission	2014 December 01
Acceptance / author notification	2014 December 30
Final presentation submission	2015 April 30

Rudy Cronk (rcronk@plcfire.com)

Sponsorship and Exhibiting

FSEP 2015 is the ideal marketing vehicle to:

- ✓ Launch and demonstrate new products
- ✓ Demonstrate your solutions to industry professionals
- ✓ Generate new sales leads
- ✓ Obtain customer feedback and conduct market research
- ✓ Meet your clients and prospects face-to-face
- ✓ Strengthen customer and supplier relations

The conference organizing committee is seeking sponsors and exhibitors and is pleased to offer an excellent opportunity to:

Gain more visibility: by participating in our sponsorship program and/or with a booth in the conference exhibition area at the FSEP 2015.

Stand out: Your company's name will appear on a large placard at the site of the sponsored event and will be mentioned throughout the conference and in the official Program.

Meeting Organizers

General Chair	Tracy Pearce (AECL)
Industry Liaison Chair	Don Trylinski (OPG)
Research / Academia Liaison Chair	Shahina Kurien (AECL)
Communications Chair	Jeremy Whitlock (AECL)
Technical Program Chair (FS)	Rudy Cronk (PLC)
Technical Program Chair (EP)	Garry Fowles (consultant)

Advisory Committee: Cheryl McCulloch (Global Safety Corp.); Grant Cherkas (OPG); Ivan Bolliger (CNSC); Jacques Plourde (Nuclear Insurance Assoc. of Canada); Vinod Chugh (AMEC NSS)

Proposed Topics of Sessions and Oral Presentations

Business Performance and Governance	Human Performance	Technology	Processes and Programs
Regulatory Affairs	Succession Planning	Communication	Nuclear Safety
Codes & Standards	Instructional Systems Development/ Training	Event Simulation	Integrating Services
License and Laws	Personnel Safety	EME	Fire Prevention
Organizational Design/Alignment	Human Resources	Fukushima	Engineering Change Control
Management Oversight	Leadership	Emerging Technologies	Business Continuity
Visions of the Future	Ethics	Analytical Tools	Risk Management
Strategies	Human Factors	Fire Protection Systems	OPEX
Business Metrics	Management of Performance Systems	Emergency Response Equipment	Analysis, Evaluation and Measurement
